

Vaccination Attestation

The City of St. Louis has different public health safeguards that must be followed depending on whether the percentage of those participating in the activity are fully vaccinated from Covid-19. Fully vaccinated is defined as being at least 14 days from the second dose of either the Moderna or Pfizer vaccines or 14 days from the Johnson and Johnson single dose vaccine. While disclosing vaccination status is voluntary we will consider any non response as an unvaccinated individual for purposes of determining the proper health and safety protocols applicable to a certain activity. Activities where vaccinated participation does not meet or exceed 70% will have more public health safeguard requirements than those that meet or exceed that threshold. By selecting your current status below you swear and affirm that it is true and accurate:

____ I am fully vaccinated

____ I am not fully vaccinated nor scheduled to be by the time I arrive on campus for my activity

____ I am not currently fully vaccinated but am scheduled to be fully vaccinated by the time I arrive on campus for my activity

Name:_____ **Date:**_____

Name of Parent or Guardian if participant is under 18 years of age_____.

Date_____
